TECO Westinghouse

Manufacturer of custom built motors to 30,000 HP. Rogers stocks WPII enclosed medium voltage motors from 400 to 5000 HP in 2, 4, 6 & 8 pole designs along with a multitude of standard low and medium voltage motors. We also stock their "EQ5" AC Variable Frequency Drive product line.

We stock "non-common stock" ratings 444T Frame and larger. We buy these motors in quantity in order to be able to offer you the most competitive price possible. A leader in Inverter Duty motors; Marathon is also the "Go To" motor manufacturer for competitively priced custom built electric motors.

SIEMENS

North American manufacturer of NEMA and Above NEMA frame electric motors from 1 through 5000 HP.

Largest Adjustable Speed Drive manufacturer in the world. From the ACS800 series "Top-of-the-Line" Direct Torque Controlled product to the General Purpose (V/Hz, Sensorless & Flux Vector), ACS550 & ACS350 series to their new DCS800 DC Drive; ABB has the proper solution for your adjustable speed drive requirements. Low and Medium Voltage Control items (Starters, SSRV, MCC's, C.B.'s, etc.) and Low & Medium voltage motor division products are also available.

OVERLY HAUTZ MOTOR BASE COMPANY

"THE WORLD'S MOST COMPLETE LINE OF MOTOR MOUNTING PRODUCTS"

Best known manufacturer of belt tensioning adjustable slide bases and frame transition bases in the country.

Large selection of NEMA frame motors, stock locations throughout the country. Reliance Electric XEX and Above NEMA designs are now part of their product group.

Manufacturer of AC Induction motors 1 thru 400 HP. Large selection of NEMA frame motors with a multitude of stock locations throughout the country.

TATUNG

Manufacturer of Low & Medium Voltage Motors from 1 HP up though 25,000 HP. AC SCI, AC SYNC, Slip Ring and DC units.

The Better Alternative

Manufacturer of NEMA & Above NEMA motors & generators, Solid State Reduced Voltage Starters and VFDs. Multiple stock locations.

HITACHI

Inspire the Next

Hitachi manufactures state-of-the-art motors and motor products ranging from the smallest micro motors to the largest motor and generator sets anywhere in the world.

TOSHIBA

Domestic manufacturer of AC motors, drives and other types of Industrial Electrical Equipment. Rogers Equipment Sales stocks Toshiba WPII medium voltage motor products to 2000 HP.

EQUIPMENT TYPES OFFERED

Horizontal Motors, C-Face, D-Flange or P-Base, Vertical Hollow or Solid Shaft, Gear Motors, Brake motors, Crusher Duty Motors, DC Motors, AC Variable Frequency Drives, DC Drives, Low and Medium Voltage Motor Control, Low and Medium Voltage Solid State Starters

OTHER BRANDS COMPETITELY OFFERED

General Electric
Worldwide Electric
Trans-Coil, Inc.
North American

US Electric Motors
Hyundai
Motortronics
Solcon

NEMA Enclosure Definitions

- ODP- Open Drip Proof; (IEC Equivalent: IP22, 23)
- WPI- Weather Protected Type 1 is an Open type motor with ventilation screens and an internal epoxy coating.
- WPII- Same as WPI except intake-air must make three right-angle turns, at low velocity, to eliminate smaller particles.
- TEFC- Totally Enclosed Fan Cooled; (IEC Equivalent: IP44, 54, 55)
- XPFC- Explosion Proof Fan Cooled, also TEXP by others; (IEC related offering: Flameproof EExd)
- TE(XP)NV- Non-Ventilated; does not require external cooling
- TEAO- Air Over; requires external cooling
- TEBC- Blower Cooled; has external separately powered blower/motor
- TEAAC- Air to Air Cooled; has air to air heat exchanger, aka. TETC (Tube Cooled), TEDC-AA (Dual Cooled)
- TEWAC- Water to Air Cooled; has water to air heat exchanger, aka. TEWC (Water Cooled), TEDC-AW (Dual Cooled)

Rogers Equipment Sales, Inc. Equipment Condition Definitions

- NEW** Factory new product with full manufacture's warranty/guarantee included.
- NEW SURPLUS** Unused product not necessarily still under warranty by the manufacturer. This product is usually sold with a one year Rogers Equipment Sales, Inc. warranty; may also be offered "As-Is/E-Okay".
- RECONDITIONED** Product has been reconditioned by a competent apparatus service provider and is offered with a warranty from either Rogers Equipment Sales or the equipment rebuilder directly. Warranty period can range from 90 days to one year or longer, everything's negotiable.
- AS-IS/E-OKAY** Electrically Okay condition means the apparatus operates and complies with the stamped nameplate rating and has been or is capable of passing any or all tests noted in section 4.3 of "ANSI/EASA Standard AR100-1998: Recommended Practice". No warranty is given or implied as to the motor's mechanical condition. One should always assume the apparatus will need some level of servicing or overhauling. Client has a very short time to claim the motor is not "Electrically Okay".
